The Joint Operating Committee welcomes and encourages visits to school by parents, residents of the community, and educators. To maintain order in the school, it is necessary to establish guidelines governing school visitors.

The Executive Director or a designee has the authority to regulate school visits to ensure they do not interfere with the educational environment.

All visitors must be approved by the building principal. All approved visitors must register and receive a pass before gaining further access to school facilities.

Staff members shall require that a visitor shows a pass in order to gain access to school facilities.

No visitor may confer with a student in the school without the approval of the instructor.
