CENTER

Summer Meal Availability

The Lancaster County Career & Technology Center participates in the National School Lunch Program which assists the facility in offering a healthy lunch to all students

All SFA's must inform families about the availability and location of free meals for students via the Summer Food Service Program.

This is required even if the SFA is not participating in the Summer Food Program.

Schools may fulfill this requirement through Robo calls, flyers or other methods that notify the community of locations of summer meal sites.

Methods to locate sites that serve free meals to children during the summer include the following:

- ❖ Call 211
- ❖ Call 1.866.3Hungry or 1.877.8Hambre
- ❖ Text "MEALPA" to 877877 during the summer months
- ❖ Visit the website www.fns.usda.gov/summerfoodrocks (this replaces the whyhungry.org website)
- ❖ Use the site locator for smartphones-Rangeapp.org
