Give Today to Build Tomorrow's Workforce:
Support the LCCTF During the ExtraGive on
November 22

The Lancaster County Career and Technology Foundation (LCCTF) was established in 2003 to support the students and programs of the Lancaster County Career and Technology Center (LCCTC). The LCCTF's goal is to ensure the LCCTC has the materials, equipment and student support to provide the best in career training for high school and adult students.

Together, we can ensure that businesses meet the need for skilled employees and members of our community find new, meaningful careers. Your donations during the ExtraGive directly support the future of LCCTC students and provide tools and resources that build a thriving workforce in our community.

Visit [ExtraGive.com](https://extragive.com) on November 22 to donate
to the Lancaster County Career and Technology
Foundation!

Here's Why You Should Donate to the LCCTF:

- Help **build the Lancaster County workforce** with highly trained LCCTC students.
- **Give LCCTC students** what's needed to succeed - technical skills, academic skills and employability skills.
- **Close the skills gap** and promote the trades.
- Support students from **all 16 Lancaster County** public school districts.
- Help to provide **state-of-the-art technology and equipment** for over 50 career and technology programs.
- **Award scholarships** for LCCTC graduates going on to post-secondary education.
- **Provide workforce grants** for LCCTC students directly entering the workforce to help purchase uniforms or tools.
- Cover costs of **uniforms and tools** for students in need.
- Support **mental health needs** of LCCTC students.
- Provide **opportunities for unemployed and/or under employed adult students** to learn a new trade and begin a new career.

By the Numbers

During the 2023-2024 school year, funds from the ExtraGive contributed to:

- **\$36,000** in **scholarships** awarded for LCCTC students moving on to Higher Education;
- **\$23,000** in **workforce grants** for LCCTC students to purchase tools, uniforms and materials for start of new career after graduation;
- **\$10,000** in financial assistance for high school students needing uniforms, tools, and certification fees;
- **\$180,000** awarded for **Teacher Innovation Grants** for the purchase of equipment and supplies to enhance curriculum for a number of LCCTC programs.

LCCTF Workforce Grant

Awardee: Samantha Fawcett

Medical Assistant, Penn Manor School District

Since she was little, Samantha Fawcett knew she wanted to be a neurosurgeon. The medical field fascinated her, and the CTC offered hands-on experience before entering college. Samantha enrolled in the half-day Intro to Healthcare Careers course in her Junior year, and her instructor, Mrs. Miller, recommended the Medical Assistant program for her Senior year. Samantha was surprised by all of the skills students learned in the MA program, and she especially enjoyed phlebotomy and administering EKGs. Outside of the MA program, Samantha was involved in the Willow Street SkillsUSA chapter and served as the Treasurer and Secretary during her time at the CTC. This experience helped her become close with students in other programs, and she expects the leadership training to be beneficial throughout her career. Following her childhood dream, Samantha was ambitious about her plans following high school graduation. She planned to attend Elizabethtown College and eventually go on to the Penn State MD program in Hershey. However, Samantha was fervent that the CTC gave her the head start she needed for her academic and medical career, noting: “The (MA) program is a great opportunity for hands-on learning and gives you something to be proud of; I went to high school and did an EKG, not many kids can say that.”
