

_____ is a student in the Power Sport
(PRINT Student's First and Last Name)
program at the Lancaster County Career and Technology Center. Enrollment in this training program requires the use of numerous tools. Each student will be issued a tool set at the start of the school year. These sets are in a toolbox which can be locked with the provided combination lock. All tools have been engraved with the set ID number. Students will be responsible for the tools in their respective sets for the entire school year. These sets are to be used in the school building or on off-site school projects (such as the new home project at the Mount Joy campus). These tools are not to be taken from school grounds without the permission of the program teacher. If a student chooses to participate in the Advanced Placement Internship or Cooperative Education Program, they will need to purchase their own set of tools. A list of the tools included in each set, along with the purchase price at the start of the 2026-2027 school year, is included on the reverse side of this document. If tools are returned and their condition is worse than normal wear and tear of use, students/parents may be responsible for paying the cost of replacing the tool(s).
